Avigilon Control Center 6 Release Notes

for Integration with AMAG Symmetry v9.0

Version 6.6.2.4 – Released June 27, 2018

Release Summary

This integration update adds support for connecting AMAG Symmetry version 9.0 to ACC. It allows live and recorded video to be displayed with analytics bounding boxes and linked to alarms within Symmetry. It also allows for Symmetry events to trigger alarms within ACC.

New Features & Issues Fixed

- Added support for AMAG Symmetry 9.0
- Support for video analytics alarms
- Ability to search for alarm mappings and Avigilon alarms
- Support for ACC Failover
- Support for H4 Fisheye Camera (De-Warping)
- Support for Idle Scene Mode/HDSM SmartCodec™

Supported versions of ACC

- ACC 5 & 6

Supported versions for AMAG Symmetry:

- AMAG Symmetry 9.0

Known limitations

- Purged Avigilon Alarms Still Present in the Symmetry Software
