Avigilon™ Control Center 5 Release Notes
for Integration with Interlogix Forcefield 7.1

Avigilon Plugin for Forcefield 5.4.0.32 – Released February 5, 2015

Release Summary

This is a new integration between the Avigilon Control Center (ACC) system and the Interlogix Forcefield system. It allows video and events from the ACC system to be presented within the Forcefield client.

New Features & Issues Fixed

- Video presentation and control within Forcefield
    - View live video
    - View recorded video
    - Export video
    - Trigger recording
    - Control PTZ cameras
- Event notification within Forcefield
    - Camera motion events
    - Server hardware events

Known limitations

- The Avigilon plugin must be installed in the same directory as the Forcefield Video Status Manager (VSM) and the Forcefield Video Presentation Client (VPC).

Supported versions of ACC

- ACC 5.4 and later

Supported versions for Interlogix Forcefield

- Forcefield 7.1
