The H4 Video Intercom integrates a 3 MP fisheye camera with a high-performance intercom, featuring echo-canceling and noise reduction technologies, for clear two-way communication with visitors. Combined with Avigilon Control Center (ACC) video management software, this secured entry system enables operators to quickly and easily identify and talk with a visitor before remotely granting access.

Features

- **Self-learning Video Analytics**: Automatically adjusts and continually adapts to changing scene conditions without needing any manual calibration.
- **HDSM SmartCodec™ Technology**: Optimizes compression levels for regions in a scene to help maximize bandwidth savings.
- **Wide Angle of View**: 120° vertical angle of view to clearly capture individuals of different heights.
- **Weather & Impact Rated**: IP66 weather rating and IK10 impact rating for vandal resistance.
- **Content Adaptive IR**: Adjusts IR beam width and illumination settings based on scene conditions to help maximize image quality.

**Appearance Search**

Use ACC™ software to quickly search for a visitor using Avigilon Appearance Search™ technology, which incorporates the unique characteristics of a person’s face to search for the same individual, even if items such as their clothing change over time.
